Colgate-Palmolive

São Bernardo do Campo, SP, Brazil

Dear Hiring Manager,

I am writing to express my enthusiastic interest in the Manager, E2E Data & Analytics position at Colgate-Palmolive. Currently I am in the process of transitioning from a successful career in supply chain management to pursue my passion for data science. I am excited about the opportunity to bring my diverse skill set and analytical mindset to your team.

My journey into data science began during my experience as a Data Specialist at Advision Consulting, where I had the opportunity to work on strategic projects optimizing Grupo Boticário's operations (E2E) through data analysis. While my background in supply chain management provided me with a strong analytical mindset and problem-solving abilities, it was my exposure to data-driven decision-making that sparked my interest in pursuing a career in data science.

Recognizing the importance of upskilling in this rapidly evolving field, I have undertaken several courses to enhance my expertise. Most recently, I completed courses in Data Science, R programming, and I am currently finalizing my studies in Python and AI apps using LangChain (with Llama3). These courses have equipped me with a comprehensive understanding of statistical analysis, machine learning algorithms, and programming languages essential for data science roles.

I am particularly drawn to Colgate-Palmolive's commitment to innovation and am excited about the opportunity to contribute to its success. My ability to leverage advanced tools such as GCP/BigQuery, SQL Server MS, and PowerBI, combined with my newfound skills in Python, R programming and LLM app using LangChain, positions me well to drive actionable insights and deliver impactful solutions.

I am eager to discuss how my unique background and skill set can contribute to the continued growth and success of Colgate Palmolive. Thank you for considering my

application. I look forward to the possibility of discussing my qualifications further in an interview.

Sincerely,

Thiago Seiki Kato
